## Crimping Pliers with quick changer magazine

The electrician travelling in mobile services needs at least 3 different crimping pliers to be prepared for crimping of the most common standard connectors. The new MultiCrimp system now offers the compact solution for the professional user: a set of optionally 3 or 5 interchangeable crimping dies in a quick changer magazine for the most common applications on the spot.

Change of crimping dies without any additional tool

Secure attachment of the dies in the pliers by reliable locking system

Crimping dies are marked with a pictogram: visible in the magazine and the pliers

Catch for exchange of crimping dies

Round magazine with belt clip:  
interchangeable dies are always  
ready to hand

**97 33 01**  
crimping pliers with round magazine  
and 3 interchangeable dies for  
non-insulated open plug-type  
connectors; insulated terminals + plug  
connectors; end sleeves (ferrules)

**97 33 02**  
crimping pliers with round magazine  
and 5 interchangeable dies for non-  
insulated open plug-type connectors;  
insulated terminals + plug connectors;  
end sleeves (ferrules); non-insulated  
terminals + plug connectors;  
non-insulated butt connectors

- ▶ set composed of pliers and quick changer magazine for current crimping applications
- ▶ very easy and quick change of crimping dies without any additional tool
- ▶ secure and dirt-proof storage of the interchangeable crimping dies in a round magazine
- ▶ repetitive, high crimping quality due to precision profiles and integral lock with very fine adjustment (self-releasing mechanism)
- ▶ these tools have been set precisely (calibrated) in the factory
- ▶ ergonomically shaped two-colour dual component handles for one and two-hand operation
